How to Create an Effective Advertisement

We would offer the following guidelines for creating Ads which will increase the likelihood of a response:

- 1) Create and use an effective **headline**. You only have 3 secs to grab the readers attention.
- 2) The **benefit** to the reader, what problem do they have which you are going to resolve?
- 3) The **offer**, ie free trial, 50% of first appointment, money back guarantee?
- 4) The **proof**, some scientific or other statement about why this works.
